

# Become a Partner remotely

Living or visiting Estonia is not a mandatory requirement to invest in becoming a Beast Partner, thanks to [Estonian e-Residency](#).

Estonian e-Residency is a government-issued digital identity that **allows non-residents to access Estonian government services and conduct business online from anywhere in the world.**

It is mainly intended to **enable remote business operations with an Estonian base, entirely digitally**, and without the need for physical presence.

## Steps and timeline

*\*Registered/legal address service can be purchased separately. Many services are available online.*

*\*Wise is our suggested service provider for remote business account setup but there are plenty of other options. Opening an account in a local Estonian bank would result in a mandatory visit to one of their offices to complete their KYC checks.*

*\*Traffic insurance will depend on the tier you choose. For Tier 1 (S3XY), mandatory traffic insurance will be covered by Beast. Read more on the topic in our **FAQ** section.*
